

Curriculum Vitae

Andrew Mallo

E-mail: amallo@illinois.edu

PERSONAL INFORMATION:

- Languages : English, Spanish (Intermediate)
- Certifications: Coursework equivalent to GIS certificate

EDUCATION:

Illinois State University

2012-Present

- **Major:** Master's Degree in Prehistoric Archaeology
- **Coursework Completed:** May 2014
- **Expected Graduation Date:** May 2015
- **Field School:** Grand Island, Michigan (Student in 2012 and Staff/Supervisor in 2013)

Northern Michigan University, Marquette, MI

2007-2011

- **Major:** Anthropology
- **Minor:** Spanish
- **Graduation Date:** May 2011
- **Honors:** Summa Cum Laude
- **Field School:** Grand Island, Michigan (Student)

Marquette Senior High School Marquette, MI

2003-2007

- High School Diploma
- **Honors:** Summa Cum Laude

Professional Archaeological Employment Experience:

Illinois State Archaeological Survey

July 2011-Present

Macomb, Illinois

- **Archaeological Specialist IV-** Duties include, but are not limited to excavations and survey focused on mitigating the damage to archaeological sites located within the right-of-way of road expansion, and other construction projects. This includes all three phases of archaeological survey and excavation on both historic and pre-historic archaeological sites. Additionally responsibilities include basic tabbing, washing, and cataloging of archaeological material, authoring short archaeological short testing reports (ATSR's), processing flotation samples, map-making using the ArcMap program, as well as field collection of spatial data using a total station and a hand-held GPS. During the 2013 summer field season, I co-supervised phase I, phase II, and phase III excavations under the direction of the site director.

I have participated in phase III mitigation projects at a number of large, significant sites including the East Saint Louis Mound Center (11S706), Fort Johnson and Cantonment Davis (11HA957), Trinity Hill (11JY582), Bethel Town site (11MG475), Buckman Flats historic Indian village (11KX271), and the Mary Hipple site (11HE506).

**Illinois State Archaeological Survey
Jacksonville, IL**

May 2010-August 2010

- **Archaeological Field Technician**-Duties included but were not limited to, phase III excavation of sites located in the right-of-way of a road-expansion project. The sites included, two Late Woodland Native American sites (circa AD 1000), and two historic sites (circa AD 1840).

ADDITIONAL EMPLOYMENT EXPERIENCE:

**Prehistoric Archaeological Lab Supervisor
Normal, Illinois**

August 2013-May 2014

- **Graduate Research Assistant**- Duties included but are not limited to, processing archaeological sites dug as part of ISU's field schools on Grand Island, Michigan, the supervision of undergraduate students, and day-to-day duties associated with running a lab.

**Illinois Archives Regional Depository
Normal, Illinois**

October 2013-July 2014

- **Intern**- Duties included, but were not limited to, handling reference requests on county, township and municipal records, arranging and processing records, and preparing descriptive inventories of collections.

**NMU Archives
Marquette, MI**

2007-2010

- **Student Assistant/ Records Center Coordinator**- Duties included, but were not limited to managing the Northern Michigan University's off-site archival storage facility, inventorying and accessioning records to a database, assisting staff, faculty, and the general public with archival research.

Additional Field Work:

**Native American Elder Interviews
Mormon Mountains, Nevada**

August 2009

- This project focused on interviewing Native American elders on the cultural significance of archaeological sites in and around the Mormon Mountains. My tasks included interviewing, navigation by aid of a GPS, and facilitating the comfort of the elders.

**Upper Peninsula Logger Interviews
Aurora, Michigan**

Summer 2008

- This interview was a part of an ethnographic project to compile oral histories of the Yellow Dog Plains for a project done through Northern Michigan University. It was an

onsite interview, taking the subjects to areas which they had logged in the 1930's through the 1960's.

Finish American Interviews at the Aura Jamboree **Summer 2008**
Aura, Michigan

- Over the course of two days, I interviewed 16 subjects. The focus of the project was to gather information about past and present usage of the Yellow Dog Plains.

Relevant Coursework:

Seminar in Archaeological Field Methods **January 2009-May 2009**
Escanaba, Michigan

- **Description:** Course taken through Northern Michigan University and Hiawatha National Forest which included instruction in basic pre-historic and historic artifact classification, theory-based interactive lecture, and identification of features which signify archaeological sites.

ANT-301 Archaeological Analysis of Prehistoric Materials **Fall 2012**

- **Description:** An advanced course that uses a combination of lectures and laboratory sessions to explore the methods used in the analysis of prehistoric archaeological materials.

ANT-488 Archaeological Ethics and Law **Spring 2013**

- **Description:** Intensive examination of current ethical issues involving the practice of archaeology and the nature and meaning of current laws regarding the excavation and study of archaeological sites and properties.

GEO-303 Geographic Information Systems **Spring 2013**

- **Description:** Fundamental principles of geographic information systems; emphasis on raster and vector based systems and their applications to spatial analysis.

GEO 304- Geographic Information Systems Applications **Fall 2013**

- **Description:** Advanced applications in geographic information systems (GIS) with an emphasis on problem-solving, advanced GIS analysis techniques, and a survey of raster and vector based GIS software and data bases.

GEO-305 Remote Sensing I **Fall 2013**

- **Description:** Basic principles of remote sensing, image interpretation, photogrammetry, and digital image processing.

Presentations:

Squeezing the Past Out of the Archaeological Record: A Summary of the 2012-2013 Field Investigations on Grand Island, Michigan **October 2013**

- Conference: Midwest Archaeological Conference

Reading the Rocks:

Collective and Contemporary Memories of the Petroglyphs and Pictographs of the Mormon Mountains **October 2012**

- Conference: Great Basin Archaeological Conference; Stateline, Nevada

Pay by Gender at NMU **March 2010**
Marquette, MI

- Conference: Northern Michigan University's Celebration of Student Research

Traditional Ecological Knowledge of the Sothern Paiute **March 2010**
Marquette, MI

- Conference: Northern Michigan University's Celebration of Student Research

Traditional Ecological Knowledge of the Southern Paiute **September 2009**
Marquette, MI

- Conference: Northern Michigan University's: Uniting Neighbors in the Experience of Diversity (U.N.I.T.E.D.)

Importance of Water among the Ojbiwe **April 2009**
Northern Michigan University

- Conference: Superior Water Festival

Yellow Dog Plains Informative Talk **Summer 2008**
Northern Michigan University

- One-on-one conversations with public that explained the focus of my research on the Yellow Dog Plains.

Public Outreach

2014- Raritin Historical Museum Artifact Identification Day- Raritin, Illinois

2013- Naturally Illinois Expo- University of Illinois, Champaign.

2013- Raritin Historical Museum Artifact Identification Day- Raritin, Illinois

2012- Naturally Illinois Expo- University of Illinois, Champaign.

2011- Native American Mound Clearing- Quincy, Illinois

Awards:

2012- Scott Elliott Endowment in Sociology and Anthropology, Illinois State University

PROJECTS SUPERVISED FOR ISAS:

2013- Co-Supervised phase I and II survey at the Big Lamb site (11MD1206; ISAS Log#09199 [formerly ITARP Log#99005] under the supervision of the field director

2013- Co-supervised phase I, II, and III excavations at the Bland Vogel site (11MD1203); ISAS Log#09199 [formerly ITARP Log#99005] under the supervision of the field director)

CURRENT RESEARCH:

Participating in archaeological surveys and excavations throughout West-central Illinois. These projects are focused on identifying, recording, and excavating a wide range of historic and prehistoric sites.

Early Archaic lithic technology and its spatial organization in western Illinois.

Master's thesis work comparing the lithic assemblages from two Woodland-period sites on Grand Island, Michigan.

Publications:
